

# Velora V55 Smart TV

## Manufacturer Warranty Terms

|              |                           |
|--------------|---------------------------|
| Model        | V55                       |
| Product code | VEL-V55-2025              |
| Edition      | Terms issued 1 March 2025 |

These terms describe the limited manufacturer warranty supplied with the product.

## 1. Scope of the manufacturer warranty

Velora Electronics provides this limited warranty for a new Velora V55 Smart TV supplied for household use through an authorised seller.

### Covered product

These terms apply to Model V55, Product code VEL-V55-2025, including the internal display, power, tuner, main-board and integrated audio assemblies supplied as part of the television.

### Territory

Service is available in the country of original authorised retail purchase, subject to local service coverage and parts availability.

### Beneficiary

The warranty is provided to the original retail purchaser and may be transferred with the product only where the new holder presents the original proof of purchase.

This manufacturer warranty is additional to any non-excludable statutory consumer rights.

## 2. Warranty period

The warranty period is 24 months from the original retail purchase date.

### Starting date

The period begins on the date printed on the valid sales receipt or invoice. Delivery, installation, account activation and first use do not create a later start date.

### Products replaced during service

A replacement product or major replacement assembly is covered for the remainder of the original 24-month period unless mandatory local law provides a longer period.

### Repair time

Time spent in repair does not automatically restart the 24-month period. Any extension required by applicable consumer law remains unaffected.

| Example                   | Purchase date | Manufacturer warranty end |
|---------------------------|---------------|---------------------------|
| Illustrative V55 purchase | 12 March 2025 | 12 March 2027             |
| Later installation        | 12 March 2025 | 12 March 2027             |

A dated proof of purchase is required to establish the starting date.

### 3. Proof of purchase and eligibility

---

A claimant should provide enough information to identify both the transaction and the product.

#### **Unreadable or missing documents**

Velora may accept a duplicate receipt from the authorised retailer or another reliable transaction record. Product manufacture date alone does not establish the retail purchase date.

#### **Authorised channel**

Products obtained from an unauthorised seller, altered serial numbers or documents that cannot reasonably be linked to the unit may require additional verification.

- Original retailer receipt or invoice showing the purchase date and seller.
- Product description or product code that links the transaction to the Velora V55.
- Model and serial number from the television's rear rating label.
- Name and contact details of the person requesting service.
- A clear description of the symptom, including displayed error codes and connected equipment.

## 4. Defects covered

---

During the warranty period, Velora will assess faults caused by defects in materials or workmanship under normal household use.

### Examples

Covered faults may include failure of an internal power supply, main-board, tuner, panel-control assembly, integrated speaker or factory-installed connector when the part fails under its intended conditions.

### Diagnosis

Remote troubleshooting or an inspection may be required before a repair is authorised. A displayed error code is a diagnostic aid and is not, by itself, confirmation of a covered defect.

### Software

Velora may restore or update factory software when this is necessary to diagnose or correct a covered fault. User-installed app data and account sessions may be removed.

Coverage depends on the diagnosed cause, not only on the visible symptom.

## 5. Exclusions

---

This warranty does not cover loss or damage caused by circumstances outside a defect in materials or workmanship.

- Accident, impact, liquid ingress, fire, misuse, neglect or unauthorised modification.
- Incorrect wall mounting, inadequate ventilation, unstable furniture or operation outside the stated environmental limits.
- Power surges, unsuitable supply voltage, external antennas, routers, cables, adapters or connected source devices.
- Cosmetic wear that does not impair normal operation, including minor marks and normal ageing.
- Image retention arising from prolonged static content where recommended safeguards were not used.
- Third-party applications, subscriptions, service availability or broadcaster data.
- Consumable batteries and accessories not supplied as an integral part of the television.

An excluded cause may still be eligible for a chargeable repair quotation.

## 6. How to request service

---

Contact Velora support or the authorised retailer before transporting the television.

### Data and accounts

Remove personal accounts where possible and keep independent copies of settings or media. Service work can require a factory reset.

### Transport

Use suitable protective packaging and follow the collection instruction. Damage caused by inadequate packaging after handover arrangements are communicated is not covered.

| Step | Action                                                        |
|------|---------------------------------------------------------------|
| 1    | Record Model V55, product code VEL-V55-2025 and serial number |
| 2    | Keep the dated receipt or invoice available                   |
| 3    | Complete the relevant manual troubleshooting steps            |
| 4    | Describe the fault, error code and connected equipment        |
| 5    | Follow packing, collection or inspection instructions         |

## 7. Remedies and service limits

---

After confirming a covered defect, Velora may repair the product, replace the defective assembly, or provide an equivalent replacement product.

### Choice of remedy

The remedy is selected after considering fault severity, parts availability, repair feasibility and applicable consumer law. Refurbished service parts may be used when they meet the required functional standard.

### No fault found

If testing does not reproduce a fault, Velora will report the checks performed. Charges may apply only where permitted and disclosed in advance.

### Consequential losses

To the extent allowed by law, the warranty covers the product remedy and does not cover unrelated costs such as missed subscriptions, third-party installation or loss of stored settings.

### Mandatory rights

Nothing in these terms excludes or limits a right that cannot lawfully be excluded or limited.

## 8. Service contacts and document status

Use the contact route supplied by the authorised retailer or the regional Velora support office for the country of purchase.

### Documents to retain

Keep these manufacturer terms, the product manual and the dated proof of purchase together.

### Term updates

A later administrative revision may clarify procedures but will not reduce the manufacturer warranty period already granted for an eligible purchase unless a change is required by law.
