Statement notes

Booked and pending items

Only booked items appear in the statement ledger. A payment initiated late in the month may book in a later statement.

Merchant references

The descriptor is supplied by the merchant or card network. Danube Leaf Bank does not add an order number that was absent from the submitted descriptor.

Online and store descriptors

CEDARCART ONLINE denotes an online card transaction. CEDARCART MARKET followed by a branch number denotes a physical-store card transaction.

Disputes

Report an unrecognised transaction promptly. The bank statement records what posted; it does not explain why a merchant's final charge differs from an order confirmation.
