

AURELIA HOME ELECTRONICS

Manufacturer warranty terms

Aurelia Q62 - EU consumer edition

Product	Aurelia Q62 / AUR-Q62-2026
Term	24 months
Edition	Warranty terms 2025.4
Source	s5b-aurelia-warranty

These commercial warranty terms supplement applicable statutory consumer rights and do not replace them.

Read the identification, safety and applicability information before relying on this document.

2. Key warranty terms

Warranty period

For the television purchased on 04 October 2025, the stated 24-month manufacturer period runs through 04 October 2027 inclusive, subject to these terms and proof of purchase.

Manufacturing scope

Aurelia will repair or replace, at its option, a covered failure caused by a defect in materials or workmanship that becomes apparent during the warranty period.

External surge exclusion

Damage caused by lightning, an externally originating power surge, abnormal supply, accident, liquid, misuse or unauthorised repair is not a manufacturing defect and is excluded from this manufacturer warranty.

Assessment

Being inside the time period does not prove that a failure is covered. Aurelia may require diagnosis to identify the probable cause.

Product	Aurelia Q62 / AUR-Q62-2026
Purchase date	04 October 2025
Period end	04 October 2027 inclusive
Proof	Dated receipt and serial number

3. Making a warranty request

Contact

Provide the product code, serial number, purchase receipt and a clear symptom description.

Remote checks

Support may ask for software version, connection details and troubleshooting results before authorising transport.

Diagnosis

The service centre records whether evidence points to materials/workmanship, external damage, installation, connected equipment or an undetermined cause.

Data

Remove account credentials where possible and back up settings. Service may reset the product.

4. Warranty remedy

Repair

Aurelia may use new or functionally equivalent parts. Repair time does not restart the original warranty period.

Replacement

A replacement may be the same model or an equivalent product where the original is unavailable.

Transport

Authorised transport is arranged for a covered large-screen product. Unauthorised shipping costs are not automatically reimbursed.

No automatic cash settlement

This manufacturer warranty provides repair or replacement remedies; it is not an insurance cash benefit.

5. Detailed exclusions

External electrical events

Lightning, an externally originating surge, wiring faults, incorrect voltage and damage caused by connected equipment are excluded.

Accident and environment

Impact, cracked panels, liquid ingress, excessive heat, blocked ventilation, corrosion and pest damage are excluded.

Use and alteration

Commercial use beyond the product rating, unauthorised modification, opened safety seals and non-approved repair are excluded.

Consumables and appearance

Batteries, normal wear, cosmetic marks and image retention resulting from prolonged static content are not manufacturing defects.

No cause inference

An on-screen code or symptom alone does not establish whether an exclusion or manufacturing defect applies.

6. Geographic and ownership conditions

Region

Service under these terms is offered for products originally supplied for the EU market.

Transfer

A subsequent owner may rely on the remaining period if the original dated receipt and serial number are available.

Import

Parallel-import service availability may differ. Statutory rights are pursued against the relevant seller.

Address

Keep contact details current when a product is collected for service.

7. Service records

Authorisation

Use an Aurelia-authorised service route for a warranty assessment.

Report contents

The report should record identity, symptom, tests, probable cause, remedy and returned parts.

Other claims

If an external cause is identified, retain the report for any separate home-insurance enquiry.

Disagreement

Ask for the technical reason where a warranty request is declined.

8. Contact and document control

Warranty reference

AU-WAR-Q62-2025.4

Required details

Receipt NS-2025-1004-771; serial AQ62-SYN-1048; product code AUR-Q62-2026.

Privacy-safe status

All parties, identifiers and contacts in this evaluation document are fictional.

Document precedence

The full terms control. A summary, manual or receipt does not extend coverage.

End of manufacturer warranty terms.
