| Delivery and handling | 420 HUF   |
| Confirmed amount      | 6,340 HUF |

# Fulfilment and payment information

Keep this page with order CCA-260320-R53 when reconciling a bank posting.

## Picking and substitutions

The confirmed amount is an estimate at checkout. A replacement item, weighed product or unavailable line can change the final amount collected.

## Card descriptor

Online orders normally appear as CEDARCART ONLINE. The bank descriptor may contain the order number, a shortened reference, or no order number.

## Matching caution

A matching date and amount can support a likely match, but those two fields alone do not prove that a bank transaction belongs to this order.

## Store purchases

Transactions described as CEDARCART MARKET followed by a branch number are physical-store purchases and are not CedarCart Online order charges.

## Customer support

For an unexplained difference, contact CedarCart with the order number and the posted transaction. The order confirmation does not state the cause of a later difference.

Synthetic evaluation record. All names, references and transactions are fictional.
