

POLARWEAVE P9 White Rug

Spot Care Guide for the polypropylene floor covering

PRODUCT	POLARWEAVE P9 white polypropylene rug
---------	---------------------------------------

PRODUCT CODE	RUG-P9-009
--------------	------------

MATERIAL	Solution-dyed polypropylene
----------	-----------------------------

DOCUMENT	Rug spot-care guide, revision 2.1
----------	-----------------------------------

Drink stain procedure

- Blot the floor covering and rinse the spot with cool water using a wet-extraction machine.
- For this white polypropylene rug only, a solution of 10 mL chlorine bleach in 1 litre of water may be used after a hidden-area test.
- Rinse the treated area twice and extract as much water as possible.

Scope limitation

- These instructions apply only to product code RUG-P9-009.
- Do not transfer this bleach instruction to upholstered furniture or fabric sofa covers.

Use this procedure only for product code RUG-P9-009. Follow the product-specific care guide for every other item.
